Charles R. Macedo Authors Bloomberg Law Article on What Every Lawyer Should Know About Machine Learning Tech

Bloomberg Law

In this Bloomberg Law article, "What Every Lawyer Should Know About Machine Learning Tech," partner Charles Macedo discusses how machine learning can be a valuable tool for attorneys – if they know how to use it. He explores how lawyers can view the learning mechanisms, the inputs and outputs, and the legal relationships involved to assist their machine learning clients in their legal matters. Read the full article.
